

# Take My Love and Run

## Bad Suns

A dropped penny said this feels so liberating, take my love and run  
Never been fond of instigating, take my love  
Oh you took my love and then you left, called it your own  
Yeah you took my love, of course you left, I should have known  
A dropped penny said this feels so liberating (take my love and run)  
I've never been fond of instigating Oh, take my love and run and no I won't come back  
Yeah, take my love and run and no I won't come back Grab my bag and bring me into the ocean, take my love  
and run  
The tide rolls in void of all emotion, take my love  
Oh, break my heart, disintegrated what would be  
Yeah, take my love, you might as well listen to me  
A dropped penny said this feels so liberating (take my love and run)  
The tide rolls in void of all emotion Oh, take my love and run and no I won't come back  
Yeah, take my love and run and no I won't come back  
Oh, take my love and run and no I won't come back  
Yeah, take my love and run and no I won't come back A dropped penny said this feels so liberating  
The tide rolls in void of all emotion Oh, take my love and run and no I won't come back  
Yeah, take my love and run and no I won't come back  
Oh, take my love and run and no I won't come back  
Yeah, take my love and run and no I won't come back You took my, you took my, I won't come back  
You took my, you took my, I won't come back
