

The World Is a Top

The Builders and The Butchers

Today the world is a top
Spinning on the devils fingers
Spinning on the devils fingers
Spinning on the devils fingersWe've gotta use our hands
We've gotta take it back one dayToday the world...I was hoping for a hole in the clouds
But I found myself a hole in the ground
I don't see the sun no more
But I can feel the rain
And I was born to take it all back one day
