Your Name

Chris Burns

You're everywhere I walk
I don't remember if I smiled
I don't think we talked
But you always hung around a while
And I don't know your name
Yeah, I think that you were tall
I don't remember if
I was ever nice to you at all
Suddenly you come undone
You tell me I'm the only one
You hold my head up with a gun
And tell me that we are in love
You touch me and you want the same
I close my eyes and start to pray
And tell you I will be the way
You want, if you will only say your name
You wrote me everyday
I never knew that it was you
I just threw it all away
I didn't know what else to do
Jesus told you to find me
And never ever let me go
And we would be so happy
He promised you that I would know
Suddenly you come undone
You tell me I'm the only one
You hold my head up with a gun
And tell me that we are in love
You touch me and you want the same
I close my eyes and start to pray
And tell you I will be the way you want
If you will only say your name, your name
I am so sorry, so sorry, oh
I am so sorry, Jesus forgot to tell me
I see that you are crying
I know you only meant to be with me
Or maybe I was hasty
I should have listened more carefully
Please tell me it?s not too late

Your decision has been made
Before you pull the trigger
Please, won't you tell me your name? Oh, your name
Suddenly you come undone
You tell me I'm the only one
You hold my head up with a gun
And tell me that we are in love
You touch me and you want the same
I close my eyes and start to pray
And tell you I will be the way
You want, if you will only say your name
