

Let's Something Wrong

Chuck Prophet

Let's do something wrong,
let's do something stupid,
something we'll regret tonight,
anything but the same old nonsense,
anything but the same old grind,
Well, I once loved a girl,
but she wouldn't love me,
I loved her hard, and I lover her true,
she only lives up the hill above me,
what in the world, can a poor boy do,
Help me!

I always did the right thing,
What did it get me?
I always did the right thing,
What did it get me?
What did it get me?

Let's do something wrong,
let's do something stupid,
(chorus)

Let's do something wrong,
let's do something stupid,
(chorus)

Let's do something wrong,
let's do something stupid, yeah,
(chorus)

Let's do something wrong,
let's do something stupid, yeah
