

Safety (Re-recording of Original B-Side)

Beth Orton

He saw a time to come
When the eyes of the world
Would see as one
He saw a time to come
When all of our laughter is seen
Through the eyes of the sun And you'll get angry in this town
Coz you see more than what's been found
You can't be too needy in this town
Coz there's enough of that around Safety in lovers
Freedom from therein
Safety in lovers
And somewhere to begin He saw a time to come
Where the eyes of the world
Would cry as one
He saw a time to come
When all of our works
Not done for the good of some
