

# Pull My Chain

## Toby Keith

Got me on a short leash, tied to your screen door  
I used to run with the big dogs 'til I stretched out on your front porch  
Used to be a hound dog, chased a lot of fast cars  
Now I don't even bark when the kitty cats stroll through the back yardI used to howl at the moon, yeah I've  
been known to roam  
Then I caught her trail one day, followed this girl home  
I ain't the same, she knows how to put my chainThey say that an old dog, can't learn a new trick  
Well she taught me to stay the first day and I learned real quick  
There's a doghouse, a fence and a gate latch  
I keep my tail waggin' and I don't mind beggin for a good scratchI used to howl at the moon, yeah I've been  
known to roam  
Then I met this girl one day that brought this old stray home  
I ain't the same, she knows how to pull my chain
