

Let The Beat Go On (Short)

Dr. Alban

Choosing BPM
Is a big problem
Choosing BPM
Is a big problem
A lot of people get hurt
 Just for nothing
 Due to inability
 To make their mind
 Make up your mind
 Before it gets too late
Action speaks just louder than voice
 If you haven't got one
 Then ask the doctor
 Just ring ring ring
 Call I on the phone
 Self-confidence
 Is the key to choose
 Self-confidence
 Is the key to choose

 Let the beat go on
 Holding on getting strong
 Let the beat go on

The youth nowadays
Have difficulties in choosing
 The youth nowadays
Have difficulties in choosing
 That's why we old
 Have to help them out
 Before they left them job
 And turn a gun-man
 Before they left them job
 And turn a hooligan
 Say mi love part I
 But me prefer part II
 When mi play them 33
 Say mi keep them alive
 When mi play them 43

Say they rock and come one
Self-confidence
Is the key to choose
Self-confidence
Is the key to choose

Let the beat go on
Holding on getting strong
Let the beat go on
