

# The Faceless

## Buried In Verona

Your face filling up with regret  
Never thought you'd see the consequences of what you have said  
Well I'm here now so tell me again  
Give me one good reason to not rip off your god damn head  
So sing the song that you sing  
I don't do this for me so what the fuck do you bring  
I'd like to see  
All the mountains you've moved  
So somebody remind me what the fuck is left to prove  
So give me something  
We come from nothing  
Been through the war  
Seen it all  
And we're still hungry  
Try as you may  
Suffer your day  
Your ideas, your insights only getting in the way  
You betrayed your, you betrayed your future with this game  
Can you look me in the eye  
You take advantage of the distance  
Just take a step outside  
Get on your knees and pray for your existence  
Could you even count the times  
You shared destructive forms of thinking  
You're infecting lives  
But there is fuel in the fire, you're the spark that ignites us  
You can't bring me down  
You can't bring me down  
You can't bring me down  
You're weak, you're all alone, they pass by you, you're a clone  
A leprosy, you condone, from place to place, never felt at home  
You're weak, all alone, no one sees a clone
