

We're Not Alone

Elevation Worship

Though our hands are tired
Our eyes they look to You
Even in the dark
We will follow after YouOur hearts are hopeful
Our faith believing
We're not alone
You are here
Your promise tells us
You're always with us
We're not alone
You are hereWhen the ground is dry
Our hope remains in You
Even in our pain
We believe that You will moveOur hearts are hopeful
Our faith believing
We're not alone
You are here
Your promise tells us
You're always with us
We're not alone
You are hereYou hear our prayer
You see our need
Nothing is too hard for our God
So we will move
Our faith in You
Nothing is too hard for our GodYou hear our prayer
You see our need
Nothing is too hard for our God
So we will move
Our faith in You
Nothing is too hard for our GodNothing is too hard for our GodOur hearts are hopeful
Our faith believing
We're not alone
You are here
Your promise tells us
You're always with us
We're not alone
You are hereWe're not alone
We're not alone

Nothing is too hard for our GodWe're not alone

We're not alone

Nothing is too hard for our God
