Magnificent

Estelle

Don't tell me you love me if it ain't really true
Don't tell me you love me just 'cause you in the mood
This thing I had for you, it's only for you my baby
I'll give it so swiftly if you start to act a fool
So when you say that you love me, do you really understand?
'Cause lovin' ain't just about touchin' and holding hands
It's a spiritual thing that
Really, really hard, so baby
So don't gimme no lies
If you really wanna be my man
My love is so magnificent baby
If you really real come take it
My love is so magnificent baby
If you really, if you really
You ain't gonna be the one
To tell me how much I'm worth
'Cause I pulled myself out up
From under the dirt
You have got to believe me, what I have don't come easy
And if your ready like I'm ready then you gotta put in the work
Now you know I'm the realist chick you've been waiting a while
And I ain't dealin' with no Harvard boy 'cause he makes me smile
'Cause you gotta step your game up
This is what I call a wake 'cause
You can take it to the left because
I'll always be the style
