You Got Me Singing

Doro Pesch

There's been many who got me talking
When I didn't have very much to say
And there's been some who got me walking
That extra mile down life's highway
And there's been a few who got me smiling
When all I felt was the deepest blue
And I've come very close to fallin' in love
Maybe a time or two
But baby, yeah baby - you got me singing
You got me singing
You got me singing - ohoh ohoh
I love you
I love you
I love you
I love you
I love you
When you're away I get so lonely, lonely
But I hold back all of my tears
'Cause somewhere you're out there and thinkin' of me
And your spirit is still here

Oh baby, yeah baby - you got me singing
You got me singing
You got me singing - ohoh
I love you
I love you
I love you
I love you
I love you.. yeah
INSTRUMENTAL
Baby, yeah baby
You're the one who got me singing yeah
I love you
You're the one who got me singing
I love you
You're the one who got me singing ooh
I love you
I love you
I love you

I love you
I love you
