Hightail

Diamond Rugs

My baby was moving to the inside
Looking like was pulling ahead
And when things started getting real tricky
My baby straight up and fled
She never really put her heart into it
She never tried that's what i saidI've had my down points and I've gotten real nasty but
My baby straight up and fled
She moved out west from what I readI got problems but no more problems than any other man
I got tried and convicted but I'm doing the best I can
The story is going life just goes on any which way he plans
Gotta pick myself up up by my bootstraps and get out there againIt don't seem real
and it hurting my head
I cant believe my baby straight up and fledWell tomorrow I'm waking up alone
The phone isn't ringing damn that old phone
Whens it gonna get any easier
my baby straight up and fled
She never really put her heart into it
She never tried that's what i saidI've had my down points and I've gotten real nasty but
My baby straight up and fled
She moved out west from what I readI got problems but no more problems than any other man
I got tried and convicted but I'm doing the best I can
The story is going life just goes on any which way he plans
Gotta pick myself up up by my bootstraps and get out there againIt don't seem real
and it hurting my head
I cant believe my baby straight up and fledIt don't seem real
and it hurting my head
I cant believe my baby straight up and fled
