

# Another Breakfast With You

## Ladytron

I don't want to fight, just want a piece of your life

    Oh, if you come out to play

    I don't want you to say anything

    I didn't feel a thing when you told me that

    You didn't feel a thing when I told you that

I didn't feel a thing, another breakfast with youI don't want to fight, just want a piece of your life

    Oh, if you come out to play

    I don't want you to say anything

    I didn't feel a thing when you told me that

    You didn't feel a thing when I told you that

I didn't feel a thing, another breakfast with youDid you ever fall in love?

    For a quarter of an hour or above
