

Temptation

Vast

I went in the desert
I went searching for the truth
I stumbled across you
And I know you're not the truth
I went in the ocean
I went looking for some love
All I found is that I found
I haven't found enough
I stand alone now, I stand alone
But can you save me from myself?
You are my temptation
You are my temptation
To do what I knew is wrong
You are my temptation
You are my temptation
To do what I knew is wrong
What I knew is wrong was you
I stand alone now, I stand alone
Can you save me from myself? Oh, please
They've been killing children
And nobody seems to care
They've been laughing at my God
My God, I wouldn't dare
You are my temptation
You are my temptation
