Up All Night

Unwritten Law

Can we talk about automatic satisfaction
Sittin' back relaxin' floored?
What's wrong with kickin' it when you're bored and lit?
Let's smoke some cigarettes

And catch up on the back porch fire up another roach And we don't need a rest this is just a test'Cuz we're alright, we're up all night

> To see the sun come up again now Just one more time no reason why

To see the sun come up againThe more we try to change
The more we stay the same, we're caught up in the game and now
Just like empty picture frames so now we're to blame
Said, "We're gettin down, on genesee and fountain

Smelled another mountain now"

If you ain't gettin down, you'll come aroundAnd were alright, we're up all night

To see the sun come up again now Just one more time, no reason why

To see the sun come up againSo let's smoke some cigarettes

And catch up on the back porch, fire up another roach

And we don't need a rest, it's just a test

And as the world spins

We'll watch it with a grin and look in as the day begins Well now it's on again, it's dawn again, yeah, yeahAnd we're alright, we're up all night

> To see the sun come up again now Just one more time, no reason why

To see the sun come up againYeah we're alright, yeah we're alright

Yeah we're alright, up all night Yeah we're alright, yeah we're alright To see the sun come up again now
