

Atlantic

Thief

Blind vision, dark skies
I'm only safe when I'm with you
Blind vision, dark skies
I,m only safe when I'm with you

The only star:
"You saw the love inside"
It's bigger than life,
It's bigger than life

Tie me on a piece of wood and send me
All across the sea
I'm not sure about the things that
could be
All I want is you - Believing in me

Bad people, cold lies
I can only speak my mind to you
Bad people, cold lies
I can only speak my mind to you

The only star:
"You saw the love inside"
It's bigger than life,
It's bigger than life

Tie me on a piece of wood and send me
All across the sea
I'm not sure about the things that
could be
All I want is you - Believing in me

I,m only safe when I'm with you
I,m only safe when I'm with you

There goes a wise fool:
"I got embraced by the most sublime and
defined truth"
It takes shape and it will remain
and it can't be denied

we've got something there to find
inside

Tie me on a piece of wood and send me
All across the sea
I'm not sure about the things that
could be
All I want is you - Believing in me
