

# Scarlet Pussy

## Prince

Once upon a time in the land of fever, there lived a scarlet pussy  
This kitty cat of fine descent, was cherished by her mother  
Who wouldn't let another, pet her, unless he was qualified  
Every 1st of the month this pretty feline got the hots  
And that's when the neighborhood, d-d-dogs  
They'd line up around the block, meow!  
When my little scarlet feline roars  
The locals come around  
(Come around)  
When they see the scarlet light  
They know it's time to come chase her down  
(Chase her down)  
Lo and behold the fantastical way  
In which their bodies groove  
My scarlet pussy's furry magic alters any mood  
Scarlet pussy, hey, it's cool  
Scarlet pussy, yeah  
Pussycat, pussycat  
Wherefore art thou, puppy?  
She can make you crazy if you're too close to her heat  
She can make you sad when you're happy as can be  
She can make you shoot your ego all over her sheets  
All is hers in love and war, my little scarlet pussy  
Every dog would try his lines  
To get pussy's attention  
All they want is so exposed  
In ways too gross to mention  
Green, virgin teenager, a filthy rich yuppie  
Pussycat, pussycat  
Wherefore art thou puppy?  
Scarlet pussy  
She can make you crazy if you're too close to her heat  
She can make you sad when you're happy as can be  
She can make you shoot your ego all over your sheets  
All is hers in love and war, my little scarlet pussy  
Scarlet pussy  
Pussycat, pussycat  
Wherefore art thou, puppy?  
She can make you crazy if you're too close to her heat  
She can make you sad when you're happy as can be  
She can make you shoot your ego all over her sheets  
All is hers in love and war, my little scarlet pussy  
All is hers in love and war, my little scarlet pussy  
She can make you happy, she can make you sad  
She can make you crazy  
She can make you shiver from your head down to your feet  
She can make you shoot your ego all over her sheets  
She can make you crazy if you're too close to her heat  
She can make you sad when you're happy as can be  
She can make you shoot your ego all over her sheets  
All is hers in love and war, my little scarlet pussy
