

# Under the Tide

## CHVRCHES

I'm watching you run  
Run from the sidelines Take in a breath  
Fill in your lungs  
Keeping you alive No fear  
I'll your eyes  
I'll be a lifeline And if I can be  
I'll be your strength  
And it won't be long now [Chorus]  
Head up, head up  
Keep holding, holding  
Your head up, head up  
Keep holding, holding If you can see  
And you believe  
Why are you so scared But if you don't care  
Then why are we here  
And what do you have left [Chorus]  
Head up, head up  
Keep holding, holding  
Your head up, head up  
Keep holding, holding Don't you take another step  
Away from here  
I would go anywhere with you  
What a lie I'll break down  
But you will never see  
Tell me, are you happy?  
Are you really happy? Stay under the tide  
Stay in my eye line  
Looking ahead, there is a chance  
Wherever it all ends [Chorus]  
Head up, head up  
And stay strong  
Holding your head up, head up  
Keep holding, holding
