

You Make Me Smile

Jennifer Love Hewitt

You make me smile
Even the times I'm trying to be serious
You are possessing the quality mysterious
A special style, you, you, you, you make me smile You make me smile
Even the times our future's looking gloomier
Come through the door and then the room looks roomier
And for a while, you, you, you, you make me smile (Together forever my heart says forever
no one makes me feel like you do)
You make me smile
(Moments together I know it's forever, 'cause nobody does what you do)
That's how I feel, boy, whenever I'm with you You make me smile
We never thinking that it could be so possible
Now on the other hand, it's highly probable
I'll stay a while, 'cause you, you, you, you make me smile (Together forever my heart says forever
no one makes me feel like you do)
You make me smile
(Moments together I know it's forever, 'cause nobody does what you do)
That's how I feel, boy, whenever I'm with you (Together forever my heart says forever
no one makes me feel like you do)
You make me smile
(Moments together I know it's forever, 'cause nobody does what you do)
That's what you do to me, baby
Oh oh oh All the things I seem to feel uptight about
Ain't so devastating after all
This must be what life is all about
Standing tall each time you take a fall You, you, you make me smile
You, you, you make me smile
That's how I feel, boy, whenever I'm with you (Together forever my heart says forever
no one makes me feel like you do)
You make me smile
(Moments together I know it's forever, 'cause nobody does what you do)
That's what you do to me, baby (Together forever my heart says forever
no one makes me feel like you do)
You make me smile
(Moments together I know it's forever, 'cause nobody does what you do)
That's how I feel, boy, whenever I'm with you
