# Let's Go Home (Sound Remedy Remix)

## Carousel

We used to say we won't get older
It'll be alright
We wait to change and then its over,
But it'll be alright
All those years we used to know
All those dreams won't goI won't let it go
I'm taking control
I want you to know
You're already homeWe could take this road, let's go home
All those dreams we know
We could take this road on our own
All those dreams we know
All those dreams won't go
It'll be alrightWe've gotten strange we've gotten older
It'll be alright
I miss the days when we were sober
But it'll be alright
All those years
We used to know
All those dreams won't goWe could take this road, let's go home
All those dreams we know
We could take this road on our own
All those dreams we know
All those dreams won't goI won't let it go
I'm taking control
I want you to know
You're already homeWe could take this road let's go home
All those dreams we know
We could take this road on our own
All those dreams we know
We could take this road let's go home
All those dreams we know
We could take this road on our own
All those dreams we know
All those dreams won't go
