

DNA

Empire of the Sun

Oh, in the meadow where we lie
Back in spring of '79
There were no rules to feel sublime
Let's trek down the path We just sat to the radio
Genuine as my heartbeats now
Turn up those years all over again
My friend And so take me away Be my, be my DNA
Don't wanna fade away
Rewind the best of yesterday
It's all discovery DreamTime, it's a special place
Let's keep each other awake
Our hearts, now they beat the same There is a dread that runs along
The seam of all the paths we've crossed
A colour wheel that spins around
Weave all into one It binds together several songs
We run to the beat of the drum
We are the creatures raising Lux
In Lux And so take me away Be my, be my DNA
Don't wanna fade away
Rewind the best of yesterday
It's all discovery DreamTime, it's a special place
Let's keep each other awake
Our hearts, now they beat the same Take me away, so far away
No one will find us
On our own island Just out of choice
The dreamer fought the battleship away
It's over the horizon Voices inside of us are guiding us on
Guiding us on Can't you hear us calling you?
Can't you hear us calling you?
Can't you hear us calling you? Be my, be my DNA
Don't wanna fade away
Rewind the best of yesterday
It's all discovery DreamTime, it's a special place
Let's keep each other awake
Our hearts, now they beat the same
