Comfortable (feat. Babyface)

Lil Wayne

I'm not saying this to shake you up
I'm just saying this to wake you up
It's all good when we making love
All I ask is don't take our love
For granted, it's granted
My love for you is real
If you don't love me
Somebody else will
Baby girl don't you, ever, get too, comfortable
Yeah, to the left to the left
If you want to leave be my guest, you can step
Feeling irreplaceable listening to Beyonce
Well ok I'll put you out on your B-Day
Now if you rocking with Weezy
Bedroom in the bank, baby we safe
I got game like E.A.
But I want to let you play
And don't I treat you like souffle
Don't I look at you like I see a new day
And don't I do what I do say
I'm through talking so I'm a let you Face
And let Ye do Ye
I'm not saying this to shake you up
I'm just saying this to wake you up
It's all good when we making love
All I ask is don't take our love
For granted, it's granted
My love for you is real
If you don't love me
Somebody else will
Baby girl don't you, ever, get too, comfortableYeah, let me catch my breath
Talk about leaving and you ain't gone yet
And if you leave, leave correct
And I'm a send a jet to pick up the next
And if you leave, you're leaving the best
So you would have to settle for less
And I am no Elliot Ness, I don't handcuff I don't arrest
I do confess to the virginsy
Cause under them sheets I am a mess

Yes, baby you blessed
Now just don't jump your nestI'm not saying this to shake you up
I'm just saying this to wake you up
It's all good when we making love
All I ask is don't take our love
For granted, it's granted
My love for you is real
If you don't love me
Somebody else will
Baby girl don't you, ever, get too, comfortableYeah, it's no sweat no sweat
