Crush On You

Roxette

I'm a zombie in the moonlight
I'm sleepin' when it's daylight
I really should be alright
But I'm feelin' kinda uptight
I'm messin' with a neighbor
Who killed my amp and Fender
He looked so sweet and tender
It's hard to tell his gender
Got coffee on the paper
My dog's an alligator
I want you now and later
I got a crush, got a crush on you
Uh huh
Got a crush, got a crush on you
Hey baby
I'm rentin' the wrong movie
I'm laughin' at the wrong guy
I'm drivin' on the wrong side
My brain is gettin' cock-eyed
The flag is never chequered
Can't find my F-beat records
God, give a little lovin'
The money's in the oven
Got dead flies in my scotch with ice
My talents always vaporize
I want your bird of paradise
I got a crush, got a crush on you
Uh huh
Got a crush, got a crush on you
On you, yeah yeah
Crush, crush
We got a good thing goin' on
Crush, crush
Crush, crush
Such a good thing goin' on
Crush, crush
I'm freezin' in the summer
I'm sweatin' in the winter
No middle in the center

No colors in the printer
No treatment at the pharmacy
No lessons learned from history
No future in the factory
No meaning in the poetry
No changin' in the weather
No Elvis in the leather
I want you now or never
I got a crush, got a crush on you
On you, uh huh
Got a crush, got a crush on you
On you
Got a, I got a, got a crush on you
On you, yeah
I got a crush, got a crush on you
Hey baby
I got a crush, got a crush on you
Oh yeah
I got a, got a crush on you
I got a, I got a, I got a, I got a
Got a, got a, got a, got a, got a
