Always

Pete Yorn

Well you know I burned out on the scene
It was like out of the blue
All of my friends they say "What you do, so much to see"
but I know they felt it tooBring it on
Take it all on
All the things we're gonna do
Bring it on
Take it all on
It will always be with youI was wrecking all the other sounds I never made
I was aching for the truth
When my only world was I was born and I was old
Ain't the fortune coming trueBring it on
Take it all on
All the things we're gonna lose
Bring it on
Take it all on
I will always be with youBring it on
Take it all on
All the things we're gonna lose
Bring it on
Take it all on
I will always know the truth
Always
