I could never go nowhere without you  
I could never go nowhere without you by my side yeah yeah yeah  
I could never go nowhere without you  
I could never go nowhere without you by my side yeah  
The past seems clear to me the whole time things were ment to be  
Let me save this last dance for you coz i know what you and i can do .....

Chrous:

I just wana be with you you  
I just wana be with you you  
I just wana be with you you  
I just wana be with you you

I woke from a deep sleep free from anxiety  
You weren't there so it's back to hibernate oooh  
Just like we with love as the cre  
No despear if you are there for me .....

I just wana be with you you (yeah)  
I just wana be with you you ( be with you you you )  
I just wana be with you ( you you ohh)

The past seems clear to me the whole time things were ment to be  
Let me save this last dance for you coz i know what you and i can do .....

I just wana be with you you  
I just wana be with you you  
I just wana be with you you  
I just wana be with you you
