Under The Radar

Massari

They never see me coming under the radar So I lay low, lay low They never see me coming under the radar So I lay low, lay low They never see me coming under the radar So I lay low, lay low They never see me coming under the radar So I lay low, lay low They never see me coming under the radar Im just trying to get mine Living my life Stained from the grind Been hustlin so long my life But still they try to bring me down,ohhhhh But they don?t really know that Ive been watching them close like a satellite But they don?t really know that Ill be standing in the crowd in my camoflauge So I lay low, lay low They never see me coming under the radar So I lay low, lay low They never see me coming under the radar So I lay low, lay low They never see me coming under the radar So I lay low, lay low They never see me coming under the radar I can see it in their eyes Envy on their eyes ,still im not surprised

You know im strong enough to take them hard times
I aint about about to give it up,ohhhhh
But they don?t really know that
Ive been watching them pulse with my third eye
But they don?t really know that
You can never change the blue print of my life
So I lay low,lay low
They never see me coming under the radar
So I lay low,lay low
They never see me coming under the radar

So I lay low,lay low

They never see me coming under the radar

So I lay low, lay low

They never see me coming under the radar(radar,radar,radar)

They never see me coming under the radar

So I lay low,lay low

They never see me coming under the radar

So I lay low,lay low

They never see me coming under the radar

So I lay low, lay low

They never see me coming under the radar

So I lay low, lay low

They never see me coming under the radar

So I lay low, lay low

They never see me coming under the radar

So I lay low, lay low

They never see me coming under the radar
