Low Earth Orbit

It's what I wanted and is what your takin' and you feel
like your gonna loose your mind
Even though I left you stranded with your life been
Branded
Your wanting more , You've lost your Pride.
Pre-Chorus: This feeling got me running wild
This feeling just ain't for your kind
Destructive but I'm feeling fine
Can't stop me when I'm in full stride Chorus: Branded ~ Don't you feel Branded
Your done Your left in my Wake !! Your seeing now that your my waste
Everyday is laughing at you
You can see that the mirror holds true
Banging your head to make it better
With visions of my kiss
My Venom parting your lips
Making you become even wetter Repeat Chorus twice
