

# Eyes Nose Lips

## Jayesslee

Oh yeah hmm  
â€“  
Tell me is it really hard to see  
That you make it so hard on me  
Go ahead and sting me with your lips  
'Cause you're just about to kill me  
Won't you set me free  
But give me one more glance as you walk away  
Smile like everything's gonna be okay  
When I'm needing you again  
I'll see you in my head  
I'll remember as if everything's always just the same  
â€“  
I know that I've been cruel in my selfish way  
I'm looking like a fool in the end  
I'm sorry if I hurt you oh baby  
Baby please just talk to me  
Looking like a fool  
Gotta get away from you  
Oh tell me what do I do oh  
â€“  
In your eyes nose lips  
The way she used to touch my skin  
Your head down to your toes  
It's like you're standing right in front of me now  
Though the light's gone darker now  
You've just gone way too far I'll keep you in my heart  
Though it kills me to say it now  
Baby I'll get over you  
â€“  
Baby I just love you so much  
But I guess it wasn't enough  
Can I see you once again  
Cause I'm dying from this pain oh  
Take me out of the way  
Never thought I would be one to cry  
But you were always there standing by my side  
In our pictures you and I in love until we die  
Now imagining that we would be ones to say goodbye

â€”-

I know that I've been cruel in my selfish way

I'm looking like a fool in the end

I'm sorry if I hurt you oh baby

Baby please just talk to me

Looking like a fool

Gotta get away from you

Oh tell me what do I do

In your eyes nose lips

The way she used to touch my skin

Your head down to your toes

It's like you're standing right in front of me now

Though the light's gone darker now

You've just gone way too far I'll keep you in my heart

Though it kills me to say it now

Baby I'll get over you

â€”-

The way you used to look into this heart of mine

And the scent that you left all over my room

I love you I love you

Come back to me don't leave me all alone

In your eyes nose lips

The way she used to touched my skin

Your head down to your toes

It's like you're standing right in front of me now

Though the light's gone darker now

You've just gone way too far I'll keep you in my heart

Though it kills me to say it now

Baby I'll get over you
