## **Silence**

## **Slapshot**

I want to know, what do you believe I want to say but can I speak my mind But you're gonna leave no matter what I say Could you be real for once in your lifeSilence - is the weapon you use on me Silence - I never take my own advice Silence - should have gotten out when I could Silence - and now I pay the priceI want to know when did you have the time I want to know does the punishment fit the crime I'd like a chance but the plea has been denied Break the silence there's no turning backSilence - is the weapon you use on me Silence - another page in your history Silence - did I have a chance Silence - or was it made for meOnce again, love takes a turn for the worst I'll be O.K. it isn't the first She just decided she'd rather be friends That's O.K. I'll just do it again and again and again
