Fault

[XO](#)

Hee yee eeaWhy did I let you inside my life?

How could I let you inside my body my soul my brain?

Now I can't make you go away

(Ooh)

You're driving me insane and inside out?

I can tell it's meaningful and so hurtful

There's no place just to hideI can tell you right now that

This pain that I feel is not just inside of my mind

I can tell you right now that

Its physical and painful to be so vulnerableOh this is my fault

Oh this is my faultHow could I lie to myself again?

These bad decisions a never ending story

I think I'd know by now just how to 'bout to smile

You're driving me insane and inside out

Because it's meaningful and so hurtful

There's no place just to hideI can tell you right now that

This pain that I feel is not just inside of my mind

I can tell you right now that

Its physical and painful to be so vulnerable

I can tell you this pain is so unreal

Can't help but feel left all alone

I can tell you to listen to me

When I say to you I knowThis is my fault

Oh this is my faultI know this is my fault

I know this is my fault

I know this is my fault

I know this is my faultI can tell you right now that

This pain that I feel is not just inside of my mind

I can tell you right now that

Its physical and painful to be so vulnerable

I can tell you this pain is so unreal

Can't help but feel left all alone

I can tell you to listen to me

When I say to you I knowThis is my fault

Oh this is my fault

Oh this is my fault

(This is my fault)

Oh this is my fault

Oh this is my fault
