

# He Could Be The One

## Josie Cotton

Smooth talking, so rockin, he's got everything that a girl's wantin'  
Guitar cutie, he plays it groovy, and I can't cant keep myself from doing something stupid  
think I'm really fallin for his vibe

I get butterflies when he says my name

CHORUS  
He's got something special  
And when he's looking at me  
I want to get all sentimental  
He's got something special  
He's got something special

I can hardly breathe somethings telling me telling me maybe

He could be the one  
He could be the one, he could be the one , he could be the one  
He could be the one, he could be the one , he could be the one  
He is lightning, sparks are flying, everywhere I go  
he's always on my mind

And I'm goin' crazy, about him lately and i cant keep myself from how my heart is racing

Think I'm really diggin' on his vibe  
He really blows me away  
CHORUS  
He's got something special  
He's got something special  
And when he's looking at me  
I want to get all sentimental  
He's got something special  
He's got something special

I can hardly breathe somethings been telling me telling me maybe

He could be the one  
He could be the one, he could be the one , he could be the one  
He could be the one, he could be the one , he could be the one  
And he's got a way of making me feel  
Like everything I do is

Perfectly fine the stars are alined when I'm with him  
And I'm so into him  
CHORUS  
He's got something special  
He's got something special  
And when he's looking at me  
I want to get all sentimental  
He's got something special  
He's got something special

I can hardly breathe somethings been telling me telling me maybe

He could be the one  
He could be the one, he could be the one , he could be the one  
He could be the one, he could be the one , he could be the one
