Kids In the Dark

Bat for Lashes

Lying next to you
We could be on the moon
Tell me you're not leaving
Cause you're always on my mind
It's been such a dark night
Boy, I know you've been grievingRiding through the pines
See you in the red light
And everything is on fire
Let's take it down
To the heart
Let's take it down
To where the loving starts
Where we're just kids in the dark
Lying next to you
And I wanna live for two
I tell you I'm never leaving
Cause you're always on my mind
It's been such a hard time
But I know it's the real thing
Riding through the pines
See you in the red light
And everything is on fire
Let's take it down
To the heart
Let's take it down
To where the loving starts
Where we're just kids in the dark
