

I Go Shopping

Alcazar

You broke my heart
And I go shopping shopping
You broke my heart
And I go shopping shopping You broke my heart
And I go shopping shopping
I've got your name on my credit card
Now I go shopping shopping I know I was born with an expectation
At rainbow's end, there's a pot of gold
Who's gonna pay for my reservation
For whom will I keep my love on hold You thought you could count on my devotion
Thought you could play with my emotions
I ain't gonna let things go your way
You're still gonna hear me say You broke my heart
And I go shopping shopping
You broke my heart
And I go shopping shopping You broke my heart
And I go shopping shopping
I've got your name on my credit card
Now I go shopping shopping You said, "I could trust your love forever"
Seemed like a perfect to do
You said that we'd always be together
Then came the day when we were through I know that I put my love on offer
When I saw the sunshine in your coffer
It's time that you pay my promise back
A sheer little shop attack You broke my heart
And I go shopping shopping
You broke my heart
And I go shopping shopping You broke my heart
And I go shopping shopping
I've got your name on my credit card
Now I go shopping shopping I've got your name on my credit card
I've got your name on my credit card
I've got your name on my credit card You broke my heart
A sheer little shop attack
You broke my heart
Shopping shopping You broke my heart
A sheer little shop attack
You broke my heart
Shopping shopping You broke my heart

And I go shopping shopping
You broke my heart
And I go shopping shopping You broke my heart
And I go shopping shopping
I've got your name on my credit card
Now I go shopping shopping
