

Demagogue

Urban Dance Squad

I kick the lyrics so hard
People get injuries
Step to me, and be a big stitch mc
Lyrics I chop, kick skills like jacky chan
Many props, loot, gladly pay the tax man
Flex plans, leave bodybags full o' men
Kick a tune like a can
Scratch heads with stray cat
I'm steady shapin' on these apes
Plus the squad took some time off, with the wild funk
So what ?
You figure, you bigger when you fill the void
I got the stacks to check yo head
Like the beastly boys
I heard your airplay 'n tracks,
Bullshit 'n flack, men on stage,
Pamper trainers lacked,
Droppin' voodoo on doo doo
I'm mad defiant cuttin' armchairs with knives
Airplay keep tryin', foolin' the flock,
What up ?, I'm straight up sleepin' skeletons
With microphones, who's grimreapin' It's the demagogue
It's the demagogue
you gotta check, check the demagogue,
funky demagogue
funky demagogue
Look and learn with the demagogue Six six six clone take a pick,
Snail bits, fail as dish
I eat galactic, poltergeist plus heist,
Plus I rip shit
Weak minds say rhymes combined with crucifix
Chairs go up, hair go up, fleas fall over
Ego puffed ?, watch me go off !
Doper with flair, deliver trauma 'n nightmare
You duck with hunchback as I punch back
With rap bat dust
'N bust off antique metaphore
Jurassic park raw, I'm carnivore,
You omnivore, I flow fat on tracks,

Like kids called fat joe
 Lyrics on diet, when you tried on wax so bogus
 I focus, play hocus-pocus,
 Yo homes, I plague domes like locust,
 Mc's cup ear, better hear some authority
 Lyrical gestapo, introduc'in' tha majority It's the demagogue
 It's the demagogue
 you gotta check, check the demagogue
 funky demagogue
 funky demagogue
 Look and learn with the demagogue Wanna see a joke, check a look-a-like
 Wanna see a joke, check a look-a-like
 Wanna see a joke, check a look-a-like
 Think they can rap but just grabbin the mic, what The funky demagogue, funky demagogue
 gotta check, check the demagogue
 hear the demagogue, funky demagogue
 funky demagogue Lyrical mass I bash 'n flex it
 Perfect bionic atomic,
 When germs hit styles not really matched up
 In atmosphere rags pushed 'n dressed up
 Shoot missiles that sizzle, carve scars on yo
 Rhymes take off like planes from la guardia
 I stand solid on bedrock, called new york,
 You gotz beef ? I eat it with knife 'n fork
 Foul like a pig on a bum
 Beggin' for some knight stick to lyric
 Billy-clubbin' 'em, now oh' what look up !
 See what yo took up !
 Weak raps make no bail, you keep booked up
 Mc's learn quick, the kid wears no badge
 Stupid brain, restrain, with plasters 'n padge
 Now give me room, watch me bloom like kurt cobain
 Attract a million ears, make 'em all insane for the funky demagogue, funky demagogue
 you gotta check, check the demagogue
 funky demagogue, hail the demagogue
 look and learn with the demagogue
 funky demagogue, to go, funky demagogue
 You gotta rock the check, funky demagogue
 see the demagogue, hail the demagogue
 and look and learn
 and your rude to stay so cocky
 i got the spray can
