## **Demagogue**

## **Urban Dance Squad**

I kick the lyrics so hard
People get injuries
Step to me, and be a big stitch mc
Lyrics I chop, kick skills like jacky chan
Many props, loot, gladly pay the tax man
Flex plans, leave bodybags full o' men
Kick a tune like a can
Scratch heads with stray cat
I'm steady shapin' on these apes
Plus the squad took some time off, with the wild funk
So what?

You figure, you bigger when you fill the void
I got the stacks to check yo head
Like the beasty boys
I heard your airplay 'n tracks,

Bullshit 'n flack, men on stage,

Pamper trainers lacked,

Droppin' voodoo on doo doo I'm mad defiant cuttin' armchairs with knives

Airplay keep tryin', foolin' the flock,

What up?, I'm straight up sleepin' skeletons

With microphones, who's grimreapin'It's the demagogue

It's the demagogue

you gotta check, check the demagogue,

funky demagogue

funky demagogue

Look and learn with the demagogueSix six six clone take a pick,

Snail bits, fail as dish

I eat galactic, poltergeist plus heist,

Plus I rip shit

Weak minds say rhymes combined with crucifix

Chairs go up, hair go up, fleas fall over

Ego puffed ?, watch me go off!

Doper with flair, deliver trauma 'n nightmare

You duck with hunchback as I punch back

With rap bat dust

'N bust off antique metaphore

Jurassic park raw, I'm carnivore,

You omnivore, I flow fat on tracks,

Like kids called fat joe

Lyrics on diet, when you tried on wax so bogus

I focus, play hocus-pocus,

Yo homes, I plague domes like locust,

Mc's cup ear, better hear some authority

Lyrical gestapo, introducin' tha majorityIt's the demagogue

It's the demagogue

you gotta check, check the demagogue

funky demagogue

funky demagogue

Look and learn with the demagogueWanna see a joke, check a look-a-like

Wanna see a joke, check a look-a-like

Wanna see a joke, check a look-a-like

Think they can rap but just grabbin the mic, what The funky demagogue, funky demagogue

gotta check, check the demagogue

hear the demagogue, funky demagogue

funky demagogueLyrical mass I bash 'n flex it

Perfect bionic atomic,

When germs hit styles not really matched up

In atmosphere rags pushed 'n dressed up

Shoot missiles that sizzle, carve scars on yo

Rhymes take off like planes from la guardia

I stand solid on bedrock, called new york,

You gotz beef? I eat it with knife 'n fork

Foul like a pig on a bum

Beggin' for some knight stick to lyric

Billy-clubbin' 'em, now oh' what look up!

See what yo took up!

Weak raps make no bail, you keep booked up

Mc's learn quick, the kid wears no badge

Stupid brain, restrain, with plasters 'n padge

Now give me room, watch me bloom like kurt cobain

Attract a million ears, make 'em all insanefor the funky demagogue, funky demagogue

you gotta check, check the demagogue

funky demagogue, hail the demagogue

look and learn with the demagogue

funky demagogue, to go, funky demagogue

You gotta rock the check, funky demagogue

see the demagogue, hail the demagogue

and look and learn

and your rude to stay so cocky

i got the spray can
