

With You I Am

Cody Johnson

I've never been a cold hand Luke
The quarterback of the winning team
Or the guy with the right kind of punch lines everybody wants to be
I never was that lucky Ol' Cuss with a straight flush in his hand Oh but with you I am
I ain't no Patrick Swayze
My old boots never danced air
Never walked with the swag looking sharp as a tack lit up like Times Square
Who's that guy with the big Ol' smile as wide as the Rio grande Oh with you I am
Strong as an oak
But soft like leather
High as a pine
And light as a feather The same Ol' boy but a whole lot better whenever you're holding my hand
I used to poke fun at them punch drunk lovers
I never thought I'd be that man
Oh but with you I am
Oh baby with you I am I've always been a "do it my way" drifter
Another highway another town
Never thought about that little white house with a porch all the way around
Yeah I never saw me on swing talkin' sweet talkin' dreams But I'll be damned
With you I am
Strong as an oak
But soft like leather
High as a pine
And light as a feather The same Ol' boy but a whole lot better whenever you're holding my hand
I used to poke fun at them punch drunk lovers
I never thought I'd be that man
Oh baby with you I am Strong as an oak
But soft like leather
High as a pine
And light as a feather The same Ol' boy but a whole lot better whenever you're holding my hand
I used to poke fun at them punch drunk lovers
I never thought I'd be that man
Oh baby with you I am
Oh baby with you I am
With you I am
