Verse One

When it's cold out we go out
We sing the songs on the radio
We sing the songs on the stereo
And In the summer, we run for cover
We keep it cool
We golden rule
We keep it cool

Chorus

All we are is children
All we are is living
All we are is teeth
All we are is dreams
All is all we need

All we wear is makeup
All we do is wake up
But we never sleep
All is as it seems
All is all we need

Verse Two

You know a bar on the corner
I know a bar on the corner too
That ain't nothing new
And when it closes, we strike up poses
We keep it cool
We know the rules
We keep it cool

Bridge

Everything and everyone
Is all I want
All at once
