California

Wave

On a lonely day
I look out on the freeway
I can fantasize 'bout the car I drive
Don't need the light on, I can find my way
It's been so long now, I have to sayI'm going to California
Going to live the life
Sippin' on tequila, night after night
Dreaming of the moment when everything is right
A little bit of love goes a long, way tonightI'm on my way
(I'm on my way)
Heading for the sun
Thats where I'll stay
(That's where I'll stay)I'm never going back home
Do you ever feel like
You need a change
Hang out where no one knows your nameI'm going to California
Going to live the life
Sippin' on tequila, night after night
Dreaming of the moment when everything is right
A little bit of love goes a long, way tonightWould you like to meet me there?
We'll be dancing on the sand
(Dance on the sand)
These days will never end
They'll go on and on and onOn a lonely day
I look out on the freeway
I can fantasize 'bout the car I drive
Don't need the light on, I can find my way
It's been so long now, I have to say
It's been so long now, I have to sayI'm going to California
Going to live the life
Sippin' on tequila, night after night
Dreaming of the moment when everything is right
A little bit of love goes a long, way tonightI'm going to California
Going to live the life
Sippin' on tequila, night after night
Dreaming of the moment when everything is right
A little bit of love goes a long, way tonight
