

# Into Eternity

## Into Eternity

sometimes I wonder what went wrong  
do I even belong here at all no  
where am I how did I get here  
wale me up from this nightmare  
I don't deserve this no one does and then he stared into the sky  
feeding his fright denying  
feeling the pain hear the screaming  
I don't want to die clear my mind  
so many times I've tried I've failed  
so many people slaughtered  
don't they have a conscience  
slaves brainwashed to be that way the darkness clouds I can't see  
will I see my family  
they pray  
would they die for me  
bury me
