

Time To Catch a Body

Ultramagnetic MC's

Yeah, we gettin' ready to smear peanut butter in the crowd
And throw mayonnaise all down your ears
You know what? We got some jams for you boy
Yo, the meltdown on 'em, check it out A lot of rappers, think they can rap and then do that
Who dat? Jumpin' on my testicles, my black scrotum
Show 'em that they style is cold butt, doo doo
Like a baby's heiny, a stinky funky boo boo Kickin' with more rounds, hi pops all sounds
Get with the drift, what I'm sayin' slayin'
Bringin' MC's to the program
Not like H-Town, soft on a slow jam I kick it wicked with the funky style lick it
Suck it, jump on the jock just like a groupie woopi
I make MC's look bad like Charlie Brown and Snoopy
Your mother act wild, sister act goofy DJ's go wild and act retarded, illiterate
Put me in the mix, well, consider it, oh yeah
I'm down to step and throw a gun in your face
Hijack all that shit, spray your station with mace I got my things in effect, all plans down
The boys ready, stupid crazy with they masks down
I walk around, okay, you think I'm jokin' Just go to sleep and see what happen, remember
Where could I be, when you're lonely for Tony
Take him outside, on the highway for a ride
Remember when the detectives come, you don't remember anything Rhymin' psycho, time to catch a body
Rhymin' psycho, time to catch a body
Rhymin' psycho, time to catch a body
Rhymin' psycho, time to catch a body
Rhymin' psycho, time to catch a body
Rhymin' psycho, time to catch a body Check it out
I get picky picky picky, sticky sticky sticky
Give a girl a pronoun, make her get with Mickey
Mantle from the Yankees, Buckwheat and then Spanky Froggy and with Idi, drink the Tetley Tea leaves
I kick the style to make a blind man see again
Drop [unverified], that's like [unverified] again
Fully roll out, connect with the one and two Like Silk, "I wanna get freaky with you
And let me lick you up and down", yeah
Now back to the verse, I had some of you debatin'
He's beatin up the demon, I larger ? than Satan Hangin' on the porthole, [unverified]
I be a goody goody but that demon's always chasin' me
Up the turnpike, connectin' to the interstate
Yabba dabba doo Rhymin' psycho, time to catch a body
Rhymin' psycho, time to catch a body

Rhymin' psycho, time to catch a body
Rhymin' psycho, time to catch a body
Rhymin' psycho, time to catch a bodyRhymin' psycho, time to catch a body
Rhymin' psycho, time to catch a body
Rhymin' psycho, time to catch a body
Rhymin' psycho, time to catch a body
