

A Big Red Kite

Lobo

I know, I owe you a better time
Then the way that I've been
But something's messing with my mind
And it's not giving in They say that I should want to be
A man who leads us all
But every time I look I see
Another leader fall So, I'm gonna sit in a green field
And fly a big red kite
I'm gonna send my mind up the string
And I'm gonna get it right They say that I should want to have
A big bank account
What uncle Sam don't take from me
Man, I don't need to count They say that I should want to stand
For what I don't believe
I'm sitting thinking to myself
What kind of man could leave
