

# Long and Lonely Highway

## Micky & The Motorcars

Written by Micky Braun  
I said I would never fall for you again  
We were always going to be friends  
Knew it would be different than before  
That all changed when I walked out your door  
Cant stop thinking about the old times  
Thought I was tough as leather  
You were young and sweet and innocent  
But I thought that we would always  
End up together  
Chorus: And not on this long and lonely highway  
That I travel every night  
From Jackpot down to Ely  
Like being in my hardest fight  
And I guess I never really lost you  
You were never mine  
I was only chasing sweet dreams  
Maybe theyll come true another time  
Chorus
