

Praise Up

G. Love & Special Sauce

Keep on praising, keep on praising Praise up praise up
Praise up your mind to find a way to live
Keep on praising, keep on praising, keep on praising
Praise up all you people living in your fantasy
Praise up all you people trapped in mental captivity
Gonna free your mind, gonna free your mind
Right now with this feeling, feeling Keep on praising, keep on praising Praise up, praise up
Praise up your mind to a fine fine way to live
Keep on praising, keep on praising, keep on praising
It's your expression, it's your expression
It's your expression that is leading me to see Open up your eyes, this ain't no compromise
Praise up on lord with this feeling right now
Oh lord what a feeling Keep on praising, keep on praising
