

Feels Like a Good Thing

Michael Schenker Group

I know what I need, and you've got what I want
Use your imagination'
Got that look in your eye's
So hard to disguise your situation
If it feels like a good thing, it's down to you girl
If it feels like a good thing, you know what to do
There's a hunger in me, I just can't seem to please,
And you've got the connections
Try not to fight, when the feeling is right,
Just move my direction
If it feels like a good thing, it's down to you girl
If it feels like a good thing, you know what to do
I know what I need and you got what I want,
Use your imagination
There's a hunger in me I just can't seem to please
Love starvation.
But if it feels, if it feels like a good thing
Feels alright, feels like a good thing.
