

# Lay Your Hands

## Night Beds

Headed out west  
Headed out west  
Headed out west  
Headed out west Leave me where you found me  
Leave me where you found me  
Leave me where you found me  
Leave me where you found me Headed out west  
Headed out west  
Holding your naked body  
But [?????]x2  
Nothing without my love will do  
Nothing without my love for you, babe  
Nothing without my love will do  
Nothing without my love for you, babe  
Nothing without my love will do  
Nothing without my love for you, babe  
Nothing without my love will do  
Nothing without my love for you, babe  
Nothing without my love will do  
Nothing without my love for you, babe  
Nothing without my love will do  
Nothing without my love for you, babe  
Nothing without my love will do  
Nothing without my love for you, babe  
Nothing without my love for you  
Nothing without my love will do  
Nothing without my love for you  
Nothing without my love will do  
Nothing without my love for you  
Nothing without my love will do
