In The Mood

Johnny Gill

Girl it seems that we can't get it right
You've been stressin',
Let me be your teacher and give you a lesson tonight
I'm a use my hand to show your body, give you a message.
I'm a give you all I got, baby I'm not stopping,
Til I hit that spot, don't be afraid to lock in

We went to dinner and a movie and now we're so ready,
Girl I've been lookin' at you from the side
Yeah that's my baby
I'm holding a secret
Cause I want you to find it,
Come give me all your love til I can't get enough
Ain't nothing better than feeling your skin, girl it's heaven,
Tonight's the night, I'm going all in
And I want you bad right now, I wanna lay you on the floor,
Or we can do it on the couch, I'm gonna give you more

[Repeat x2]
Girl let's take it to the bed, nothing else needs to be said
Just give me your love I'll give it back girl
I'm in the mood, I wanna be next to you

Girl you know you want it like I want it baby,
Don't play hard to get, yeah, baby come get this, whoa
I can do you better, tell me what you need,
Baby let me do ya, I can set you free,
Baby don't say no, tell me where to go

We went to dinner and a movie and now we're so ready,
Girl I've been lookin' at you from the side
Yeah that's my baby
I'm holding a secret
'Cause I want you to find it,
Come give me all your love til I can't get enough
Ain't nothing better than feeling your skin, girl it's heaven,
Tonight's the night, I'm going all in
And I want you bad right now, I wanna lay you on the floor,
Or we can do it on the couch, I'm gonna give you more

[Repeat x2]
Girl let's take it to the bed, nothing else needs to be said
Just give me your love I'll give it back girl
I'm in the mood, I wanna be next to you

[Repeat x2]
I don't wanna wait another minute, girl I want you right now, now, now, now
I don't wanna wait another minute, girl I wanna take you now, now, now, now

[Repeat x2]
Girl let's take it to the bed, nothing else needs to be said
Just give me your love I'll give it back girl
I'm in the mood, I wanna be next to you
