Taxi Cab

R. Kelly

Bright nights, street lights in a city that never sleeps
Loud music and talks, people where all the party seems
I saw a girl and I notice that she noticed me
We sipped mojitos, then she told me all about her dreamsThen we made love in a taxi cab
It reminded me of a dream I had
Now the memory's like a photograph, ooh babe
And I can't get her out of my head, ohMade love in a taxi cab, taxi cab, taxi cab
Made love in a taxi cab, taxi cab, taxi cab
Made love in a taxi cab, taxi cab
And I surely know she's thereI come alone, I come alone, oh, that's what she said
I come alone, I come alone, ohLooking at the rearview she said to me, let go and be free
Then she told the driver mind his business and then went there on me
Then I told her we're just 15 minutes from my home
But she didn't stop, she kept saying it feels so incredibly wrongAnd we made love in a taxi cab
It reminded me of a dream I had
Now the memory's like a photograph, ooh, baby girl
And I can't get her out of my head, ohLast night, made, made love in a taxi cab, taxi cab, taxi cab
Last night, made love in a taxi cab, taxi cab, taxi cab
Last night, made love in a taxi cab, taxi cab
Last night and I surely know she's thereAnd it all happened so soon, girl
I didn't even get a name, she took control and had her way
Oh I, and it was like a hotel room, yeah
We're taking a gamble what people love to payOh, we made love in a taxi cab
It reminded me of a dream I had
Now the memory's like a photograph, baby
And I can't get her out of my headOh, last night made love in a taxi cab, taxi cab, taxi cab
Last night made love in a taxi cab, taxi cab, taxi cab
Last night made love in a taxi cab, taxi cab
Last night and I surely know she's thereLast night made love in a taxi cab, taxi cab, taxi cab
Last night made love in a taxi cab, taxi cab, taxi cab
Last night made love in a taxi cab, taxi cab, taxi cabThen we made love in a taxi cab, taxi cab, taxi cab
It reminded me of a dream I had
Now the memory's like a photograph, baby
And I can't get her out of my head, ooh babe
