

# Save Yourself

## Soft Machine

It's my, my bed you're lying on  
It's my, my bed you're dying on  
But if it's my head you're relying on  
You gotta save yourself  
    Don't enslave yourself  
    Just to save yourself  
Stay in your own bed at night  
Because, girl, you know that if  
I try to feed you and keep you all week to make you feel secure  
    Then you won't leave my bed, though you want to stay fed  
    Will your heart remain, girl?  
    You know you can't make it  
    Without tryin' to fake it  
And I believe, baby  
You gotta save yourself  
    Don't enslave yourself  
    Just to save yourself  
Stay in your own bed at night
