

# Playin' That Beat

## I, Tay Stayness

When the fire goes on and the lights go down  
Deejay keep playin' that beat for me tonight  
When the fire goes on and your love's not around  
Deejay keep playin' that beat for me tonight You know I've gotta do  
Everything in my power  
I know that a light's gone down  
You've gotta show me, I've gotta show you  
You've gotta see, the way that I do  
I know, there's nothing more  
I'm gonna be a mighty star  
And I'm gonna show you what for! When the fire goes on and the lights go down  
Deejay keep playin' that beat for me tonight  
When the sound of love's all that's around  
Deejay keep playin' that beat for me tonight If there's one virtue that I ask for you  
It's that you meet me here tonight!  
When I put my strength into this tonight  
I expect you to show!
