

# Work the Middle

## Cherub

Got just one question to ask  
I know you want me, ya do you want me?  
'Cause if you walk too fast  
I'll we'll start running, I'll we'll start running  
She's all I ever talk about  
Yeah, Alia said it best hands down 'Cause we go back & forth, back & forth  
Yeah we go back & forth, back & forth  
We work the middle, from side to side  
Wanna be with you, rockin' the night I hope this isn't movin' too fast  
I wanna touch you, I wanna touch you  
I hope this isn't too brash  
'Cause I wanna kiss you, and I wanna rub you  
I'm all she ever talks about,  
And, yeah I put those words right in her mouth 'Cause we go back & forth, back & forth  
Yeah we go back & forth, back & forth  
We work the middle, from side to side  
Wanna be with you, rockin' the night [Electronic break] 'Cause we go back & forth, back & forth  
Yeah we go back & forth, back & forth  
Yeah we go back & forth, back & forth  
Yeah we go back & forth, back & forth  
Yeah we go back & forth, back & forth  
We work the middle, from side to side  
Wanna be with you, rockin' the night
